

Chief, Communications Branch

January 8, 1948

Chief, FEIB

QRM on 11680 kcs.

1. During the past three weeks FEIB reception of London broadcasts to Europe on 11680 kcs. between 1600 and 1630 EST has suffered interference from a U.S. Airforce tactical station identifying itself as "AAD-2", Airforce Radio St. Louis. It is understood that this transmitter has been using the channel without authority.

2. It is recommended that the Office of the Chief Signal Officer be informed of the situation and requested to take appropriate action.
